2022 – 2026

Government College of Engineering, Erode (IRTT /GCE-E)
Electronics and Communication Engineering

SKILLS

PYTHON, JAVA, C programming, SQL, DBMS - DATABASE MANAGEMENT SYSTEM, Git.

PROJECTS

Secure Network Access Management System

2026

In shared networks like colleges, hostels, and offices, traditional systems trust devices immediately after connection — leaving unauthorized access undetected. We designed a secure network access management system built entirely on the Zero-Trust security model, where no device is ever trusted by default. The system continuously monitors network traffic behavior to protect against suspicious activities.

Pet Adoption Matchmaker: Connecting Pets and Adopters

08/2025

Designed and implemented a robust database to store pet profiles, adopter preferences, and compatibility criteria. Utilized SQL for efficient data querying and filtering logic to pair pets with adopters based on lifestyle, preferences, and pet characteristics.

WORKSHOP

Model Rocketry Workshop, IIST Trivandrum

10/2024

Acquired practical skills in designing, constructing, and launching model rockets, while exploring core concepts of aerodynamics, propulsion, and flight dynamics. Collaborated with peers to address challenges and enhance rocket performance, strengthening teamwork and problem-solving abilities.

TOOLS

GitHub, VS code, Git, Microsoft Word, Microsoft Powerpoint, MATLAB.
